Ladies and Gentlemen:

Please find enclosed an Environmental Assessment prepared by the Montana Department of Fish, Wildlife & Parks (FWP) Fisheries Division. FWP must decide whether or not to grant an easement for the right of way across the Miles City Fish Hatchery property as requested by the Tongue River Railroad Company (TRRC). Two options are available to the State. FWP can implement a negotiated easement agreement with TRRC in which all critical concerns of FWP and the Miles City Fish Hatchery would be addressed and mitigated or FWP can choose not to grant an easement, in which case TRRC could initiate condemnation proceedings to appropriate the lands required for the right of way necessary for construction of the rail line as granted by the Surface Transportation Board.

The Environmental Assessment is available on Montana Fish Wildlife & Parks' webpage:
